Suggestions/Recommendations:

When this worker arrived Charlina reported that her co-provider just got called away on an emergency due to a sick child. She reported that she called an assistant/sub to come over but that second person was not yet present. She did have 11 children in her care. If only one provider is present, she is only allowed to have 8 children.
It should be noted that the assistant/sub did arrive within about ten minutes. The children were sitting nicely awaiting lunch that Charlina was providing. Although Charlina was out of compliance for a short time, it did appear to be an emergency situation and she did takes steps appropriately to have a back up come ASAP. There are no suggestions in this situation other than to continue to take steps to abide by the number of children allowed at one time.

Charlina needs to have the number for each child’s parent, a responsible person who can be reached when the parent cannot, and the child’s physician written on paper and readily accessible by the telephone. This worker did provide her a form she can use and we discussed other options for this as well.

Charlina needs an updated pet exam for her dog on the HHS approved form.

Corrective Action Required:

A re-check is not needed at this time, corrections need to be made by 9/22/23 and will be reviewed at the next annual compliance check.
