CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Monique has been a registered child care provider in Iowa since 1999. Monique cares for children aged infant through school age for all three shifts of care. Monique states she tries to teach children growth and social skills through every day interactions and her play based environment.

2. Identify Observed Strengths Of The Program

Monique believes her greatest strength in working with children is her patience level. Monique stated that she takes more pride in her job now and works hard to provide a safe environment for children. Monique often helps the families she cares for by assisting in securing every day needed items. Monique's paperwork system has greatly improved since she first became registered. Monique maintains her paperwork in a file box and uses folders to identify important paperwork for children and HHS. Monique has had some health issues recently, however, her commitment to children and child care is evident as she is back caring for children again and re-registering her environment after a short break.

3. Identify The Aspects That Fall Below The Standard

110.8 (2) a : A safe outdoor play area is maintained in good condition throughout the year.

Monique had a propane tank outside of her door where the children entered the home. Monique had two cinder blocks under the swing set that could potentially harm a child if the child fell from the swing. The swings had torn plastic covering over the chains that was hanging below the swing, resulting in a hazard to children.
Monique placed the propane tank and the two cinder blocks in the outdoor shed during the visit.
Following the visit, Monique sent a picture of the swings - the plastic covering was removed from the chains and no longer is a hazard to children.

110.9 (1) a : Within six months of becoming registered, a physical exam report documented on form 470-5152, Child Care Provider Physical Examination Report, for all household members over the age of 18. Physical exams should be repeated every three years.

Household member Devin needs physical documented on required HHS form within 6 months.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

Monique needs to send Devin's physical to this worker by 6/1/2026.

5. Special Notes/recommendations

CCRR worker Paige Jewel was also present for this pre inspection visit.
Approving pre inspection at this time. Devin's physical is needed within six months.
