I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

An unannounced licensing visit was made to Edison Kids & Company on 10-1-2024. The program is located upstairs in the gym/cafeteria. Before and after school child care services are provided Monday through Friday 6:15 am to 6:00 pm for children preschool age to fifth grade. Full day child care services are offered for in service days, school breaks and during the summer. Becky Thornburg continues to be the on-site supervisor, she will worked for Kids & Company for fourteen years. There are 67 children enrolled. I met with Becky during my visit.

Observation of room:
The gym/cafeteria is a nice large open room. There is plenty of room for a variety of activities. The program was in ratio. Twenty eight children and three staff were present, the children were having fun playing in a variety of activity centers. Staff had excellent interactions with the children, they were attentive to the needs of the children. There is a fun variety of age and developmentally appropriate toys and equipment. Daily hands on educational activities are provided to the children - including art, crafts, reading, group games and science. The center has lesson plans/activities for the week. A monthly newsletter is provided to the parents.
Becky gets the center/children involved in community service projects.
Kids & Company began using the child care app Brightwheel in 2023.

Nutrition:
Nutrition services through the school provides the daily snack. The center participates in the federal food program. Breakfast can be purchased through the school for an additional fee. Menus are posted.

Health and safety:
The center follows the medication management procedures when children are prescribed medication. The medication log is used. The first aid kit was properly stocked.
Purell Surface is used for sanitizing and they use the three step bottle procedure 1. soap/water bottle for cleaning 2. Water bottle for rinsing and 3. Bleach/water for sanitizing.
Since you are in a school the Department of Education is responsible for making sure radon testing is completed and DHHS child care licensing no longer tracks the radon testing information. Radon testing was completed in February 2022 with a test score of 1.0 pCi/L.
The annual fuel burning inspection/boiler inspection expired in June 2024 make sure you have a new fuel burning inspection/boiler inspection.
Monthly fire/tornado drills are practiced and documented.

Playground:
The program uses the school playground. Monthly playground inspections were practiced and documented.

Transportation:
The center doesn't provide daily transportation services. When field trips are taken a school bus is hired.

Administrative records:
Children's files were read and were in good order. Some of the registration forms had the name of the doctor cut off due to how they were printed. Becky will go through the child files and write the name of the doctor on the forms that are missing the information.
Staff files were reviewed on a previous date at the administrative office.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

Becky is confident as the director, she is very creative, enthusiastic and proud of her program. Becky makes learning fun for the children. She does an amazing job finding fun toys and supplies for the program.
Staff had excellent interactions with the children.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

V. SPECIAL NOTES/RECOMMENDATIONS:

A full license is recommended for Edison Kids & Company for 1-1-2025 to 1-1-2027.

The annual fuel burning inspection/boiler inspection expired in June 2024 make sure you have a new fuel burning inspection/boiler inspection.
