Findings:

A follow-up compliance visit was completed on this home on 2-21-17. At this time the provider was still in need of completing the following items.

They do need to have a private sewer system compliance completed. This cannot be completed at this time of the year.

The contact person to have the septic system tested is with the Linn county Public Health Department, Environmental Health Specialist, Jim Kelso at 319 892 – 6022 can assist with that. Please call Jim to make the arrangements for that to be completed.

They also need to post, at their secondary exit, the emergency evacuation plan.

They also need to have their substitute provider complete the pre-service essential training. this needs to be completed by 10/31/17 along with their pre-service essential training.

They also need to obtain a physical for all of the children in their care. They did need the immunization records for one child. They also needed the identifying information for two of the children and emergency medical consent for one of the children.

Suggestions for Improvement:

Continue to work with child care resource and referral consultant.
