CHILD CARE ANNUAL EVALUATION

1. Basic Overview

I conducted a compliance visit with Registered Child Development Home Category B provider Cassie Hoisington on 7/24/2025. Cassie continues child care in a newer built home in a rural setting. Septic and well services are new, with a completed well water check conducted in 4/2025 showing safe drinking water. Cassie designed the home with a large side room designated for all of her child care needs. She does use the kitchen during meal times. We talked about the possibility of adding a step system to one of her basement egress windows if she wants to use the lower level in the future. Shelby has been conducting child care since 10/2025 and currently has one HHS-approved substitute/assistant on her registration.

2. Identify Observed Strengths Of The Program

Cassie has relatively low numbers of children right now, allowing for good attention to the children. She describes multiple activities available to kids including coloring, music, and art projects. A significant portion of the children's schedule is reserved for free play, including a lot of time outside when the weather is cooperative.

3. Identify The Aspects That Fall Below The Standard

N/A

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

N/A

5. Special Notes/recommendations

I encourage Cassie to work with Shelby Hageman from Child Care Resource and Referral with any ongoing compliance or training needs.
Shelby can be reached at: (319) 433-7760

Cassie had one infant in care under 12 months who was awake during our visit. She has appropriate crib for napping, and we reviewed safe infant sleeping polices.
