Findings:

When this worker arrived five children were present with two of these children under the age of 24 months. Provider is within allowed category B numbers.
During the visit a tour of the entire home and outdoor area was completed finding all items to be in compliance.
A complete review of records noted some items needing updated. Jennifer needs to update her parent contact emergency posting as it was missing one child's information. Jennifer added this during the visit. Jennifer has 3 dogs and all three need their vet form updated as they are expired. Jennifer agrees to have form 470-5153 Pet Health Examination Veterinary Health Certificate on file for each dog by 2/15/2023. While reviewing daycare child files Jennifer was aware that some items needed updated and agrees to work with the CCRR by 2/15/2023 to ensure all files are updated completely. Five children need updated annual physicals, one child needed an entire file, 1 more child needed signed medical consent for treatment in an emergency, one child needed written permission to leave the property on field trips, and three children needed immunization reports or updates.

Suggestions/Recommendations:

Corrective Action Required:

Jennifer updated and completed the emergency contact posting during the visit. Jennifer will meet with the CCRR worker for a follow up visit to ensure all child file items have been completed by 2/15/2023.

Non-compliance with any of the mandated requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration. Please take whatever steps are necessary to completely address each of the violations noted above. It is essential you correct all above-mentioned violations.
