☒ Registered Child Development Home C

☐ Registered Child Development Home C1

☐ Non Registered Child Care Homes accepting CCA

Program Population Served:

☐ Infant(0<24 mos)

☐ Toddler

☐ PreSchool

☐ School Age

☒ All Ages

1. Basic Overview

Lindsay is a category C two provider child development home. Lindsay's mother Janet is her co provider. Lindsay provides care for children aged 8 weeks through 6 years of age. Lindsay will consider school agers if the child has been in her care previously. Lindsay offers care Monday through Friday during first shift hours. Lindsay has a play based learning environment for children. Child care is provided in Lindsay's finished basement. Children enjoy table time, fine motor development, active play and going outside as much as possible.

2. Identify Observed Strengths Of The Program

Lindsay and her mother Janet work well together. Lindsay reports Janet is 'cool, calm, and collected' all of the time, when

dealing with children. Lindsay does not have to advertise for openings in her child care setting. Word of mouth referrals keep her full all of the time. This reflects the quality of care being provided in this child care setting. Lindsay reports that she believes their greatest strength is that her environment allows the kids to become an extension of her own family. Lindsay prides herself on working well with parents in raising kids together. Lindsay works hard to teach the children to be "good humans". Lindsay has a private face book group for her families, which allows her to post information directly to them. Lindsay is strict about their illness policy and enforcing it. This has helped Lindsay's environment remain healthy and Lindsay able to provide consistent care for children rather than closing often due to illnesses. Lindsay communicates well with HHS and seeks assistance if needed.

3. Identify The Aspects That Fall Below The Standard

Each smoke detector has been installed according to manufacturer’s recommendations.

All dogs and cats have annual examinations. Records of the exams are on file and must verify that routine immunizations are current and animal is free of endo and ecto parasites.
Form 470-5153, Pet Health Examination Veterinary Health Certificate, is on file.

110.9 (4) a : Identifying information including, at a minimum, the child’s name, birth date, parent’s name, address, telephone number, special needs of the child, and the parent’s work address and telephone number.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

The smoke detector at the top of the second level stairwell had been taken down as it needed a new battery. Lindsay put this detector back up during the visit.

Lindsay's pets all need updated pet records on the required HHS form. They are scheduled with the vet for these exams next week.

Lindsay is in the process of updating child files at this time. All files need to have enrollment forms signed and dated again and current physicals and immunization certificates.

Lindsay needs to send updated pet records for all five pets to Kathy by 3/2/2026. This can be emailed to kathy.huinker@hhs.iowa.gov or texted to 563-949-6971. Child files will be reviewed again at next year's compliance visit.

5. Special Notes/recommendations

Targeted compliance: Emergency Preparedness Plan.
Lindsay's emergency preparedness plan was thoroughly reviewed with Lindsay. Lindsay updated the location of the first aid/emergency items in the home as this has changed. Lindsay also updated the names of individuals who would assist in evacuations or emergencies as many of these individuals are no longer employed within the child care. The rest of Lindsay's EPP remained up to date and appropriate.
