	SUSPENSION of license
	REVOCATION of license

Licensing Consultant: Kathy DeGeorge-Evans **Date:** 02-22-2024

I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

An unannounced licensing visit was made to LO-MA Kid Care on 2-20-2024. The program is located in the Logan-Magnolia School in Logan Iowa. The center became licensed on January 1, 2016. The center provides before and after school child care for preschool to school age children, preschool programming and wrap around child care for the preschool children. The before and after school program provides full day child care during the summer, in service days and holiday breaks. Jill Kiger is the director for all programs, she is the school principal. Taylor Mikels is the on-site supervisor for the preschool program, she is also one of the preschool teachers and Amy Schwertley is the on-site supervisor for the before and after school program called Kidcare. There are 186 children enrolled in the center.
I met with Taylor Mikels and Sharon Chase during my licensing visit.

Observation of rooms:
There are five program rooms for preschool, Panther room wrap around child care, and transitional kindergarten. I observed these rooms and rooms were in ratio and children were involved in a variety of fun activities. Staff had excellent interactions with the children, they were positive and attentive to the needs of the children. Kidcare - the before and after school program is located in the commons/cafeteria area, they also use the gym, the school age children were in school at the time of my licensing visit. The center has a fun variety of age and developmentally appropriate equipment and supplies. The preschool program uses Creative Curriculum for the three year olds and Creative Curriculum Gold for the four/five year olds they also use a math and social and emotional component. Each teacher prepares their own lesson plans/activities. No preschool programming is held on Fridays.
The center promotes fun hands on learning experiences for the children every day.
During the summer the Kid Care program takes field trips i.e. swimming and library.
Some staff have excellent longevity. The staff enjoy working at the center and are a close community.
The Panther room uses the Playground child care app.

Nutrition:
The program doesn't participate in the federal food program. Even though you don't participate in the federal food program you are required to meet the CACFP food guidelines. The children eat the school lunch and a daily snack is provided. When the children attend full day programming through the before and after school they are responsible for bringing their own lunch and they are stored in the refrigerator. There are thermometers in the refrigerator/freezers.
Monthly lunch menus were posted. Make sure the snack menus are posted.

Heath and Safety:
The medication management procedures are followed when children are prescribed medications and the med log is used. The supervisors work with the school nurse for administering medication during school hours. If medications are required after school hours Amy will set up a plan.
Fire/tornado drills are practiced and documented on a monthly basis.
Radon testing is required every two years. (If test scores are over a 4.0 pCi/L retesting and possible mitigation is required).
The center has carbon monoxide detectors.
The annual fuel burning inspection (boiler inspection) will expire in July 2024.

The program rooms use bleach/water for sanitizing and disinfecting, the three step procedure is followed - 1. soap/water bottle for cleaning, 2. water bottle for rinsing and 3. bleach/water for sanitizing or disinfecting.

Playground:
The program uses the school playground. The monthly playground inspections were completed.

Transportation:
The child care program doesn't provide transportation services.

Administrative records:
Taylor and Amy communicate with staff on an ongoing basis and with Jill Kiger. Staff meetings are held and they have staff notes.
Make sure each program room has a hard copy of emergency contact information for each child - contact information for the parents, pick up information and the name of the doctor and dentist and phone numbers.
Staff files were reviewed and were in good order.
Child files were read and were in good order.
The center is applying for IQ4K.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

Staff had excellent interactions with the children.
Your program is a wonderful resource for the school and community.
The center participates in the Quality Rating System (QRS) and they are a level 4 and they are applying for IQ4K.
The center receives grants for equipment and supplies.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

V. SPECIAL NOTES/RECOMMENDATIONS:

A full license is recommended for 1-1-2024 to 1-1-2026.

*Note: If you are the Child Care Center Director and you feel something is unclear or unjustly cited, please contact your DHS Licensing Consultant to discuss the issue. The child care director may also send a response which will be placed in the licensing file.

*Note: If you are a member of the general public, there may be additional information contained in the public file. You may contact the DHS Licensing Consultant to inquire.
