RECOMMENDATION FOR LICENSE:	
X	**FULL** license from 01-01-2024 to 01-01-2026
	PROVISIONAL license from
	DENIAL of initial application
	SUSPENSION of license
	REVOCATION of license

Licensing Consultant: Nate Knepper **Date:** 11-15-2023

I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

N/A.

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

A licensing visit was conducted on 11/15/23. The on-site supervisor was present throughout the visit.

All areas of the program were observed. These areas observed consisted of classroom observations and activities, ratios, nutritional practices, health and safety practices, playground observation, field trip and transportation practices, and administrative review. The most recent COVID updates were also reviewed.

Wee Care- Timberline is a center that is located within a few classrooms in the Timberline School in Waukee, IA. The center was given permission to open on 8/17/15. This center serves children whose parents work for the Waukee School District. Children served range from six weeks in age to roughly five years in age. The center operates only during the school year. The center utilizes the Creative Learning Curriculum and is overseen by a Board. The center director is Andrea Wilmes. Andrea has been a director of related Waukee centers (BTB and Wee Care) since 2004. Andrea has her BA degree in Human Services and has been involved in child care since 1989. Abbie Andersen is the on-site supervisor at this location since 6/2021. Abbie has a BS degree as well as past experience working in child care.

During the visit, infant children were observed in free-choice play with infant toys around them. The staff member was sitting on the floor with the children. The two year old children were outside with their staff playing on the playground. In the three/four/five year old classroom, children were observed in free-choice play at the different learning stations made available to them (blocks, manipulative toys, art). The staff member in this classroom was walking around and engaging in conversation with children.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

This center runs very similar to the other Waukee Wee Care programs.

The center sends out a monthly newsletter to parents. In addition, monthly staff meetings are held. Communication between staff and parents as well as other staff are highly stressed. The center uses the online application, Brightwheel.

The on-site supervisors of the BTB programs and Wee Care programs meet monthly for meetings.

The center has their own website where additional and more specific information about the center can be found.

Staff pictures are posted by the main parent board.

There is a washer and dryer on site.

The center participates in the "Catch" program which focuses on healthy eating and physical activity for children as well as the 5-2-1-0 program.

The center utilizes their nurse consultant and CCR&R.

There is a secure entrance into the preschool main area.

The center has access to the school nurse if needed. The center also has a good working relationship with other school personnel.

Meals are reviewed by the nutrition department through the Waukee School District.

Good child activities were observed in classrooms. Staff were actively engaged with children and their activities.

Staff work well together per the on-site supervisor.

Enrollment remains steady.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

109.9(2)b: All files contain sufficient information and authorization to allow the center to secure emergency medical and dental services at any time child is in center's care.
Number not in compliance for medical: 0
Number not in compliance for dental: 2
Information lacking: All children, regardless of age, need to have a doctor and a dentist listed. The information should include the name, address, and phone number for both.

109.10(15)b: Emergency instructions, phone numbers, and diagrams for fire, tornado, and flood shall be visibly posted and documented at least once a month for fire and tornado. Records shall be maintained for current and previous year. November and December fire and tornado drills were not documented. All other months previous and up to the current month were documented.

V. SPECIAL NOTES/RECOMMENDATIONS:

Radon testing was last tested in classrooms 9/3/21 - 9/7/21. All classrooms came back with radon levels below the 4.0 cutoff. Because levels were below 4.0, the center can move to testing for radon at least every five years now. So long as radon levels remain below 4.0, they can remain on a five year plan. If at the next testing, levels in any classroom come back 4.0 or higher, the center will have to have a mitigation plan, retest, and at least temporarily move back to testing every two years.

The most current boiler inspection expires in 8/2024.

As previously noted in past visit, for transportation/field trips, the center contacts with the Waukee School District. The center will also bring in different agencies for presentations to children throughout the year.

I-Power and IQ4K were discussed at the visit.

A new, full, two-year license is recommended.

*Note: If you are the Child Care Center Director and you feel something is unclear or unjustly cited, please contact your DHS Licensing Consultant to discuss the issue. The child care director may also send a response which will be placed in the licensing file.

*Note: If you are a member of the general public, there may be additional information contained in the public file. You may contact the DHS Licensing Consultant to inquire.
