Program Population Served:

- [ ] Infant(0<24 mos)
- [ ] Toddler
- [ ] PreSchool
- [ ] School Age
- [X] All Ages

CHILD CARE ANNUAL EVALUATION

1. Basic Overview

I completed a compliance visit with Registered Child Development Home Category B provider Suzanne Schweer on 4/27/2026. Suzanne has been involved in child care for 36 years. She has a unique set-up, using exclusively the second floor of an addition to the home for her child care. The space includes a large, open room which contains work stations, play stations, and a large table for crafts and activities. The second floor room has three separate permanent stairways leading to the ground level. Suzanne is in a rural setting, and has a satisfactory well water statement good through 7/2026. She has a fenced section of her back yard to serve as her outside play area. Suzanne has one pet dog who has a current vet statement on file. She frequently closes her operation during the summer months and resumes when school starts in late August. Suzanne is due for her registration renewal effective 3/31/2027.

2. Identify Observed Strengths Of The Program

Suzanne offers primarily a pre-school style program. She offers lots of activities that include learning, large/fine motor skills, science units, arts, crafts, letter units, and reading. She adjusts her activities to be age appropriate for her current group. (Typically serving ages between 2-5.) Suzanne describes her strengths as years of experience, responsible, caring, and she rarely closes during the school year. The children were working on a project at the main table when I arrived and transitioned to some free play as we completed our visit. The children responded well to Suzanne, and she displayed good control of her environment. Suzanne participates in the Food Program to enhance the nutrition of her meals and snacks.

3. Identify The Aspects That Fall Below The Standard

110.9 (1) a : Within six months of becoming registered, a physical exam report documented on form 470-5152, Child Care Provider Physical Examination Report, for all household members over the age of 18. Physical exams should be repeated every three years.
-Suzanne's health statement recently expired and needs to be renewed. This needs to be in place by 7/31/2026 and should be completed using the State form I shared a copy of. I will review this correction during our next visit.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

N/A

5. Special Notes/recommendations

The 2026 targeted compliance for the Emergency Preparedness Plan was conducted. Suzanne was in compliance having a plan consistent with her current operation.

I encourage Suzanne to work with Katie Cruise from Child Care Resource and Referral with any ongoing compliance or training needs.
Katie can be reached at: (319) 530-5265

Suzanne has no infants under 12 months of age in care at this time. We reviewed safe infant sleeping policies for future reference.

CHILD CARE ANNUAL EVALUATION
