CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Tonya Dillenburg has been a childcare provider for seven years. Prior to opening her childcare home, she was a para educator at the school. She currently cares mostly for her grandchildren, but has one that could be considered family. Her hours during the summer have been open early morning to around 9 pm. With school starting next week, she may have one or two before school children, but the majority of her childcare hours will be from 3 pm to 9 pm or so.

2. Identify Observed Strengths Of The Program

The childcare home has a play space for the children. There are multiple sets of toy options for the children while they are in care. She will also have activities for children to keep them busy. They play outside when they can until the weather gets too hot.

3. Identify The Aspects That Fall Below The Standard

Within six months of becoming registered, children 18 years of age or younger residing in the household must have:Admission physical exam report.Immunization certificate.For school age: Documentation of physical exam completed at time of school enrollment or since that time.

**Tonya has an additional household member, she reports that the child is 16. Tonya will need a physical on file for the new household member. Tonya also needs to fill out a change application to add this child to her home.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

N/A

5. Special Notes/recommendations

Discussion with the provider to submit a change application that will add the 16 year old child to her household. This can be completed online at the provider portal or contact registration for an application to be mailed to you.

Compliance staff discussed safe sleep, emergency preparedness, and shared new legislative updates that were effective July 1, 2025.
