CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Beth Martone is a CDH Category C2 provider, living in Des Moines. She has been a registered daycare provider since 2010. Beth has an approved co-provider. Beth lives in a ranch style house but only uses the basement area for her child care operation. Her basement is a walkout basement.

2. Identify Observed Strengths Of The Program

Beth Martone was organized for our compliance check. At the time of my compliance visit Beth had 13 children present ranging in ages 2 years old to 4 years old. Beth and her co-provider were both present. Beth does not provide care to infants. Beth participates in the food program. Beth runs a preschool program. The children also like to do arts and crafts, calendar time and play outside. When I arrived, they were heading outside to play. Beth has a large side yard fenced in with toys for daycare children to play with. Beth uses redirection for discipline. We reviewed safe sleep regulations for infants. Beth does not provide care to infants but does have pack and plays if needed.

3. Identify The Aspects That Fall Below The Standard

110.9 (4) d : For infants and preschoolers: An admission physical examination, on the first day of attendance, including past health history, status of present health, allergies and restrictive conditions, and recommendations for continued care when necessary. The date of the exam is not more than 12 months before the child's first day of attendance.
110.9 (4) e : For infants and preschoolers: A statement of health signed by a physician submitted annually.
110.9 (4) g : A signed and dated immunization certificate provided by the state Department of Public Health.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

1. Please review all child files. Daycare children need updated physicals and immunizations. Physicals need updated yearly.

5. Special Notes/recommendations

I encourage you to continue working with Roxana from Child Care Resource and Referral for any ongoing compliance or training needs.
