CHILD CARE COMPLIANT

Complaint Details:

Did this complaint result in a serious injury?	☐ Yes	☒ No
Did this complaint result in a death to a child?	☐ Yes	☒ No

Summary of Complaint:

A parent wanted to report concerns regarding the diaper changing schedule at this daycare. The caller states that she/he picked up the child and the child was completely soaked. When she/he put the child into the car seat the parent reported the his/her arm was completely soaked from the child's pants. The parent reported several times that this has happened. The parent started marking the diaper and the child would come home with the same diaper after being in child care a minimum of 6 hours, sometimes longer.

The parent was also concerned about the 3 large dogs in the home and overall cleanliness.

Rule Basis and Findings of Complaint(s):

This worker went to the home unannounced. The condition of the home was pretty good. The dogs are gated off in the office area or upstairs, they are not in the children's area. This worker completed an annual spot check and found some no smoking signs missing, fire and tornado drills not practiced and some missing physicals in the children's files. This worker talked to the provider about the changing schedule and getting on a set schedule and completing a parent sheet for each family so they know when diapers are changed and when and what they eat.

Resolution and Action Required:

This worker recommended a set schedule for diaper changing, checking children every couple of hours, but changing in-between if they were aware of a wet or soiled diaper. . This worker also recommended going back to a daily logging of diaper changes, when and what a child ate for the parents to pick up when they pick up their child. Most days 3 adults are present all day, allowing them the ability to keep track of these sheets.
