CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Bertha was initially approved as a Registered childcare provider in 2009. She provided childcare for a few years then took a break. She was again approved as a Registered childcare provider in 2017. She is not a participant in the IQ4K quality rating system. Bertha has not had any children enrolled since 2023 but does wish to continue to be registered. She is not interested in infants but is willing to take all other age groups. She is considering setting up her childcare in a house across the street from her current location.

2. Identify Observed Strengths Of The Program

Bertha has not had children enrolled since 2023. Thus, this worker was not able to observe any interactions. However, she was in full compliance with all areas.
Bertha does want to continue to be a resource and thus is keeping her Registration open.
Bertha's home was clean.

3. Identify The Aspects That Fall Below The Standard

Bertha was in compliance with all mandated regulatory requirements of a Registered Child Development Home.

Thank you for your service in providing childcare in your community.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

NA

5. Special Notes/recommendations

Notes:
We did discuss safe sleep policies.
We did discuss the number of children that Bertha is allowed to have at one time as a Category B provider.

Recommendations:
Bertha had written policies for ill children and health emergencies, but she did not yet have anything written in regard to notifying parents in writing that they are able to submit an exemption for immunizations (either religious or medical) in lieu of the immunization record for each child. This is a new policy effective 7/1/25 so we did discuss this. While I was present this worker did assist Bertha with adding the necessary language to her current policies.
