Findings:

This worker arrived at the home on 6/13/23 around 8:15am to find 10 child care children present. Angela's daughter Morgan, who is an approved assistant was also present. Angela was in compliance with her numbers and age ranges for category B.

A complete tour of the home was done and the following was noted: (Angela provides child care in the lower level of her home and has a kitchen there as well.)
- Angela's fire extinguisher was expired.

The outdoor area was observed with no hazards noted.

A full review of records noted some items needing updates:
- Morgan who resides in the home and is an approved sub and assistant did have a physical and immunization record but it was not on the approved DHS form.
- Morgan (approved substitute and assistant) did not have certification of two hours of approved training relating to identification and reporting of child abuse (expected within the first three months of employment)

This worker reviewed several files for the children in care on this date and the following was noted:
- Angela was missing the signed medical consent form the parent authoring emergency medical treatment for one child in her care.
- Angela needs written permission from a parent for the child to attend activities away from the child care home, for two children.

Aside from a few missing items, her files were nicely organized in a binder.

Suggestions/Recommendations:

- Angela needs to obtain a 2A 10BC rated fire extinguisher that needs to be visible and readily accessible.
- Morgan (as a household member, assistant and sub) needs to have her physical and immunization record on the approved DHS form.
- Morgan (approved substitute and assistant) did not have certification of two hours of approved training relating to identification and reporting of child abuse (expected within the first three months of employment). Angela reported that she is in the process of her renewal and will not be having Morgan continue as an approved assistant/sub. If that is the case, she does not now need to take the course but if Morgan continues as an approved assistant/sub, she will be expected to complete that training.
- Angela needs to update her children's files to include:
  - a signed medical consent form the parent authoring emergency medical treatment for one child in her care.
  - written permission from a parent for the child to attend activities away from the child care home, for two children.

You may contact your local CCR&R for further assistance if needed.
