Findings:

An annual compliance check was completed on 2/27/25 and the following was out of compliance:

441 IAC 110.8(1)“h” The home shall have at least one single-station, battery-operated, UL-approved smoke detector in each child-occupied room and at the top of every stairway. Each smoke detector shall be installed according to manufacturer’s recommendations. The provider shall test each smoke detector monthly and keep a record of testing for inspection purposes.

Julia was missing 2 smoke detectors. One was in the kitchen due to some work that is being completed, and one was in a bedroom where the battery needed to be replaced and the smoke detector re-installed.

Julia needs to test her smoke detectors monthly and document that accordingly.

441 IAC 110.9(2) An individual file is maintained for each staff assistant and contains:
Certification of two hours of approved training related to identification and reporting of child abuse as required by Iowa Code section 232.69 within 3 months of employment.

Brooke/assistant did not have verification of her Mandatory Child Abuse Reporter training. This was also something that was out of compliance at last year's annual check.

441 IAC 110.9(4) Children’s Files. An individual file for each child shall be maintained and updated annually or when the provider becomes aware of changes. The file shall contain:
For children under the age of 6, a statement of health condition signed by a physician or designee submitted annually from the date of the admission physical. For a child who is enrolled in school, a statement of health status signed by the parent or legal guardian may be substituted for the physician statement.
For each school-age child, on the first day of attendance, documentation of a physical examination that was completed at the time of school enrollment or since.
A signed and dated immunization certificate provided by the state department of public health. For the school-age child, a copy of the most recent immunization record shall be acceptable.

Julia was missing an annual/updated physical and immunization record for one of the children.
