Dear Child Care Provider:

This letter is in regards to the compliance visit at your Registered Child Development Home B conducted on 11/08/2023. Iowa Code Chapter 237A and 441 Iowa Administrative Code, Chapter 110, describes specific requirements that must be met by a Registered Child Development Home. You are not a participant in the voluntary Quality Rating and Improvement System. The following areas were out of compliance at the time of the visit:

441 IAC 110.8(1) **Facility Requirements**

441 IAC 110.8(1)"g" The home shall have at least one 2A 10BC rated fire extinguisher located in a visible and readily accessible place on each child-occupied floor.

441 IAC 110.15(3) **Facility requirements:**

441 IAC 110.15(3)"c" The home shall have a minimum of two direct exits to the outside from the main floor.

1. If the second level or the basement of the home is used for the provision of child care, other than the use of a restroom, each additional child-occupied floor shall have at least one direct exit to the outside in addition to one inside stairway.
2. All exits shall terminate at grade level with permanent steps.
3. A basement window may be used as an exit if the window can be opened from the inside without the use of tools and it provides a clear opening of not less than 20 inches in width, 24 inches in height, and 5.7 square feet in area. The bottom of the opening shall be not more than 44 inches above the floor, with permanent steps inside leading up to the window.
4. Occupancy above the second floor shall not be permitted for child care

Findings:

441 IAC 110.8(1)"g" The home shall have at least one 2A 10BC rated fire extinguisher located in a visible and readily accessible place on each child-occupied floor.

441 IAC 110.15(3)"c" The home shall have a minimum of two direct exits to the outside from the main floor.
If the second level or the basement of the home is used for the provision of child care, other than the use of a restroom, each additional child-occupied floor shall have at least one direct exit to the outside in addition to one inside stairway.

1305 E. Walnut Street, Des Moines, IA 50319-0114

Suggestions/Recommendations:

1. A fire extinguisher needs to be on the lower floor.

2. Stairs up to the basement window needs to up to one of the windows to allow a second exit.

Corrective Action Required:

A re-check is not needed at this time. The above corrections need to be completed by 1/8/2024 and will be checked on your next annual compliance check.

I encourage you to work with your Child Care Resource and Referral Worker (Brenda O'Halloran 641-820-1923) with any training or compliance efforts.

Non-compliance with any of the mandated requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration. Please take whatever steps are necessary to completely address each of the violations noted above. It is essential you correct all above-mentioned violations.

Please do not hesitate to contact me at DHS at 515-601-9469/jaringd@dhs.state.ia.us if you have any questions regarding this letter.

Sincerely,

Jake Aringdale
