1. Basic Overview

Angela has been a Registered childcare provider since 2011 (14 years). She shared that she also had prior childcare experience in centers before that. Angela was rated level 1 on the previous quality rating system. She has participated in Child Net certification. She currently is rated a level 3 on the current IQ4K quality rating system. Quality care is important to her. Angela does participate in the Food Program. Angela is open to caring for children of all ages (infant - school-aged). Angela has a fenced in yard. She does have an above ground pool but shared that the childcare children do not utilize it. It is fenced off appropriately. She did report using water tables for outdoor waterplay for the children. Angela provides childcare on the main level of her home and on the lower level. Angela does have pets (3 dogs). Those dogs were outside while this worker was present but Angela shared they do at times interact with the children. Angela does not have a substitute or assistant.

2. Identify Observed Strengths Of The Program

Angela had well written and thorough policies/contract. She had much more than the minimum required 2 policies. She did share that she has her families sign a new contract each year.

Angela's documentation was nicely organized in folders, so this worker was able to easily review her documentation while she was able to feed a little one and still appropriately actively supervise and care for the childcare children.

This worker observed positive interactions between the children and Angela.

Angela described structure and routine in her day. Her lower-level space was set up quite nicely and she has a variety of items for both large and small muscle development. Angela did share that if she is not able to get the children outside (due to weather) she does often provide dance or other activities for large motor skills.

3. Identify The Aspects That Fall Below The Standard

110.9 (1) a : Within six months of becoming registered, a physical exam report documented on form 470-5152, Child Care Provider Physical Examination Report, for all household members over the age of 18. Physical exams should be repeated every three years.

Angela did not have a current physical exam for her oldest son.

*Angela needs to obtain a current physical exam (within in the past 3 years) for her oldest son and this needs to be documented on the HHS approved form.

(Angela should also obtain a more current physical for her 18 year old son and now that he is 18, this should also be documented on the approved HHS form.

A re-check is not needed at this time. The above corrections should be made within 3 weeks (by 2/5/26) and will be reviewed at the next annual compliance check.

Thank you for your service in providing childcare in your community.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

NA

5. Special Notes/recommendations

Notes:
Angela shared that she does not transport the childcare children.
We did discuss safe sleep policies.
Angela is aware of the number of children she allowed to care for at one time as a Category B provider.

As part of the 2026 Targeted compliance the Emergency Preparedness Plan was thoroughly reviewed. Angela was in compliance with her EPP.
She was encouraged to review it at least yearly to ensure that no changes need to be made.

Recommendations:
Angela had written policies for ill children and health emergencies, but she did not yet have anything written in regard to notifying parents in writing that they are able to submit an exemption for immunizations (either religious or medical) in lieu of the immunization record for each child. This is a new policy effective 7/1/25 so we did discuss this, and she agreed to get that documented accordingly.
