1. Basic Overview

Kelli has been providing childcare since 2019. She does not participate in the IQ4K quality rating system. She does participate in the Food Program. Kelli does have 1 dog and 3 cats. On this date this worker observed positive interactions between the pets and the children. Kelli does currently have spots available for additional children. She is open to caring for children of all ages.

2. Identify Observed Strengths Of The Program

Kelli's policies include more than the 2 required policies.
This worker observed positive interactions between Kelli and the children on this date.

CHILD CARE ANNUAL EVALUATION

Kelli's files were nicely organized so this worker was able to verify the required documentation while Kelli was able to give the children a snack and feed a baby a bottle.

3. Identify The Aspects That Fall Below The Standard

110.8 (4) a : Emergency and disaster plans for fire and tornado are written and posted by primary and secondary exits.
Kelli did not have her emergency and disaster plan for fire and tornado posted at her primary exit. (She did report it had fallen off, and she needed to put up a new one)
*Kelli needed to send pictorial verification of compliance in this area, and she did send that to this worker on this same date.

110.9(4) : An individual file is maintained for each child and updated annually or when there are changes.
Kelli did have a file for each child, but they had not been updated annually.
*Kelli needs to ensure that the parents review the required documentation annually and sign and date accordingly.

Each file contains:
110.9 (4) e : For infants and preschoolers: A statement of health signed by a physician submitted annually.
110.9 (4) g : A signed and dated immunization certificate provided by the state Department of Public Health.
Kelli was missing an initial physical and immunization record for a baby that started in care this week.
*Kelli needs to work with the parents to ensure she has all of the required documentation for each child's file.

A re-check is not needed at this time. The above corrections should be made within 30 days and will be reviewed at the next annual compliance check.
Please send pictorial verification of the items where specifically noted above. (Kelli has already sent pictorial verification of what was requested.)

5. Special Notes/recommendations

Notes:
Kelli does not transport the childcare children.
Kelli shared that she does not ever use a swimming pool.
We did discuss safe sleep policies.
Kelli is aware of the number of children she is allowed to care for at one time as a Category B provider.
Kelli only uses the main level of her home for childcare.
Kelli did share that she does not often take the children outside to play. We did discuss the benefits of outdoor play. Kelli did share that the kids do listen to music and dance regularly in order to burn off energy and use their large motor skills.

Recommendations:
Kelli had written policies for ill children and health emergencies, but she did not yet have anything written in regard to notifying parents in writing that they are able to submit an exemption for immunizations (either religious or medical) in lieu of the immunization record for each child. This is a new policy effective 7/1/25 so we did discuss this, and she agreed to get that documented accordingly.
