441 IAC 110.8(1)“n” Providers shall inform parents of the presence of any pet in the home.
Each dog or cat in the household shall undergo an annual health examination by a licensed veterinarian. Acceptable veterinary examinations shall be documented on Form 470-5153, Veterinary Health Certificate. This examination shall verify that the animal’s routine immunizations, particularly rabies, are current and that the animal shows no evidence of endoparasites (roundworms, hookworms, whipworms) and ectoparasites (fleas, mites, ticks, lice).
Kassidy did not have annual pet exams for the 2 dogs.

All children residing in the household must have medical documentation outlined in 110.9(4) “d”, 110.9(4) “f”, and 110.9(4) “g”.
Kassidy could not locate her provider health exam. Her husbands had expired, and her daughter needs an updated physical.

441 IAC 110.9(4) Children’s Files. An individual file for each child shall be maintained and updated annually or when the provider becomes aware of changes. The file shall contain:
An admission physical examination report signed by a licensed physician or designee in a clinic supervised by a licensed physician
The date of the physical examination shall not be more than 12 months before the child’s first day of attendance at the child development home.
The written report shall include past health history, status of present health, allergies and restrictive conditions, and recommendations for continued care when necessary.
For a child who is five years of age or older and enrolled in school, a statement of health status signed by the parent or legal guardian may be substituted for the physical examination report.
The examination report or statement of health status shall be on file before the child’s first day of care
For children under the age of 6, a statement of health condition signed by a physician or designee submitted annually from the date of the admission physical. For a child who is enrolled in school, a statement of health status signed by the parent or legal guardian may be substituted for the physician statement.

A signed and dated immunization certificate provided by the state department of public health. For the school-age child, a copy of the most recent immunization record shall be acceptable.
Written permission from the parent for the child to attend activities away from the child development home.
Kassidy was missing an updated physical for one of the children and the permission to attend activities for 3 of the children.

Kassidy's mother (who is an approved childcare provider in Marshall county) was visiting the home on this date with 2 of her own childcare children. This worker did ask how frequently she visits, and they reported she comes to the home probably once per week. This worker advised that Kassidy should take steps to get her approved to be in the childcare home since she is a frequent visitor.

Corrective Action Required:

Kassidy needs to obtain a latch on her kitchen sink/cabinet as it has chemicals under it and they were not secured from access from the children. Please send pictorial verification.

Kassidy needs to obtain a current provider health form for herself, an updated exam for her husband and they both need to be on the approved HHS form.
Kassidy also needs to obtain an updated physical for her daughter.

Kassidy needs to work with the parents to obtain any missing documentation from the children's files.

Kassidy agreed to take steps to get her mother approved to be around the childcare children since she does visit the home weekly.

Non-compliance with any of the mandated requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration.
