CHILD CARE ANNUAL EVALUATION

1. Basic Overview

I conducted a compliance visit with Registered Child Development Home Category B provider Jennifer Hauptmann on 6/19/2026. Jennifer has been involved in child care for 10 years. She continues using the main and basement level of her ranch style home. Jennifer has an egress window and step system to serve as the second exit to her lower level. She had 7 children present during our visit and cares for a total of 11 at this time. Jennifer has 3 HHS-approved substitute/assistants. Jennifer and her husband are just completing a re-model project on their main floor level which includes new flooring, trim, and painting. Jennifer has one dog and has a current vet statement on file. She has a fenced back yard for an outside play area and is due to renew her registration effective 12/31/2027.

2. Identify Observed Strengths Of The Program

Jennifer describes her primary strength as "how much I love these children." I noted good communication between Jennifer and the children during my visit. Her curriculum involves a lot of free play during the summer months. She has more structured activities during the school year though coloring, arts and crafts are regular year around. The children have regular outside time as weather allows. Jennifer participates in the Food Program to enhance the nutrition of her snacks and meals.

3. Identify The Aspects That Fall Below The Standard

110.8 (1) h : Has a minimum of one single-station, battery-operated, UL-approved smoke detector in each child-occupied room and at the top of every stairway.
- Jennifer needs to re-mount a battery operated smoke detector in her basement family room and main floor bedroom.

110.9 (4) c : A signed medical consent from the parent authorizing emergency treatment.
- Jennifer needs to update the kids files for one of her families with a current Emergency Medical Treatment Authorization form.

The above corrections need to be in place by 9/4/2026 and will be reviewed during her next visit.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

N/A

5. Special Notes/recommendations

The 2026 targeted compliance for the Emergency Preparedness Plan was conducted. Jennifer was in compliance having a plan consistent with her current operation.

I encourage Jennifer to work with Kathy Lloyd from Child Care Resource and Referral with any ongoing compliance or training needs.
Kathy can be reached at: (319) 231-9405

Jennifer currently has no infants under 12 months of age in care. We reviewed safe infant sleeping policies for future reference.
