	PROVISIONAL license from
	DENIAL of initial application
	SUSPENSION of license
	REVOCATION of license

Licensing Consultant: Nate Knepper **Date:** 12-03-2024

I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

N/A.

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

A licensing visit was conducted on 12/2/24. The on-site supervisor was present throughout the visit.

All areas of the program were observed. These areas observed consisted of classroom observations and activities, ratios, nutritional practices, health and safety practices, playground observation, field trip and transportation practices, and administrative review.

Beyond the Bell - Woodland Elementary is a school-age program located within the Woodland Elementary School in West Des Moines, IA. The program was previously supervised by the Department of Education and was given permission to open under HHS (formerly known as DHS) licensing/supervision on 9/2/14. During the school year, children who attend this school attend this Beyond the Bell program. However, during summer months, there is open enrollment. Hours are 6:30am - 6:00pm during the summer months and no-school days. During the school year, children attend 6:30am - 8:40am and/or 3:40pm - 6:00pm. The program is one of several Beyond the Bell programs and they all use a similar learning curriculum based off of other learning curriculums. This center uses the cafeteria, gym, and outdoor playground area.

All Beyond the Bell programs are overseen by a Board. The directors of this program and the other Beyond the Bell programs are Andrea Wilmes and Rich Miller. Andrea is also the director at the three Wee Care centers in Waukee. Both individuals meet the requirements for director. Kamari Palimore is the on-site supervisor at this location as of 2/2024. Kamari has a BA degree as well as past experience working in child care school-age programs.

During the visit, children were divided up between the gym and the cafeteria. In the cafeteria, several children were observed coloring and doing art projects related to winter. In the gym, children were engaged in large motor activities. Staff were spaced out and walking around among the different groups of playing children. Child hand washing was also observed.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

Staff use walkie-talkies to communicate with each other throughout the center.

A good system is in place for gathering attendance when school dismisses for children who go to this program.

All of the Beyond the Bell programs have information posted online through the Waukee School District Website.

Staff photos are posted by one of the main parent boards.

Monthly staff meetings are held. In addition, directors from this program meet with other western-suburb, school-age programs quarterly for meetings and there are monthy on-site supervisor meetings for the BTB programs. Communication

is stressed per the on-site supervisor.

Staff from BTB are interchangeable between sites as needed.

There is a good relationship between center staff and other school personnel per the on-site supervisor.

The on-site supervisor believes staff work well together, are flexible with their hours, and have good relationships with the families they serve.

There is a front desk person by the main entrance greeting parents and checking children into and out of the center during the day.

The on-site supervisor is organized.

All BTB programs now have shared behavioral specialists and curriculum specialists that work between the programs.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

109.7(5): Training plans are developed for staff that supplement educational and experience requirements and enhance staff's skill in working with the developmental and cultural characteristics of children served.
Staff have taken the required Waukee School District trainings, but also need to take trainings approved through HHS for child care.

109.11(3)a: Center shall ensure that: Facility and premises are sanitary, safe, and hazard free. Adequate indoor and outdoor space is provided. The outdoor area shall include safe play equipment and area of shade.
The playground area was only partially observed this year because of the weather/snow cover. However, there are still bolts along the fence and gate and the ground that need to be cut/capped so that no more than two threads are showing. THIS IS AN ISSUE FOR THREE YEARS IN A ROW NOW.

V. SPECIAL NOTES/RECOMMENDATIONS:

The center is exempt from environmental testing as they are located in a school and only serve school-age children.

For transportation for field trips, the center contracts with the school district and they take a school bus.

I - Power was again discussed at the visit. Several staff still need to upload training into their profile. The on-site supervisor needs to be connected to this program. The KT number of the program was provided to the on-site supervisor during the visit.

As mentioned at last year's visit, another handwashing posting is needed for the other sink. These are the main sinks used by the center.

The old posting for this consultant should be taken down. It was noted the center also had the most current posting for this consultant posted.

A new, full, two-year license is recommended.

*Note: If you are the Child Care Center Director and you feel something is unclear or unjustly cited, please contact your DHS Licensing Consultant to discuss the issue. The child care director may also send a response which will be placed in the licensing file.

*Note: If you are a member of the general public, there may be additional information contained in the public file. You may contact the DHS Licensing Consultant to inquire.
