CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Jessica Scott has been a childcare provider for 4 1/2 years in Council Bluffs. She accepts all ages of children in her care. At the time of the visit, Jessica had seven preschool aged children in her care. She also has two children who come before and after school. The provider is an IQ4K Level 2 rated provider. She is also ChildNet certified. The provider also works with the food program. The provider reported that they keep busy throughout the day with dance parties, playing with different toys and going outside when the weather permits. She has a set of modular pieces that she reported the kids love to get out and climb all over or slide down the one side that has a curve.

2. Identify Observed Strengths Of The Program

Compliance staff was able to observe the provider and children in her care during the visit to the home. When compliance staff arrived, the children were "painting" pumpkins. The provider had mini pumpkins and the children had crayons and markers to paint with. The children seemed happy and excited to show their pumpkins to compliance staff.

When the children were finished, the children brought out different toys to play with. They asked for help getting toys from a corner and the provider assisted in getting certain items. Compliance staff was able to observe the interactions between the provider and children. The children easily sought out the provider for assistance. The provider speaks to the children in a calm manner. The provider used redirection and explanation when talking to children who were starting to tussle. It was busy while compliance staff visited, but the provider does a great job of keeping on track with everyone.

3. Identify The Aspects That Fall Below The Standard

Jessica was in full compliance.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

5. Special Notes/recommendations

Compliance staff discussed safe sleep practices, emergency preparedness planning and shared legislative updates from July 1, 2025.
