	PROVISIONAL license from
	DENIAL of initial application
	SUSPENSION of license
	REVOCATION of license

Licensing Consultant: Kathy DeGeorge-Evans **Date:** 04-26-2023

I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

An unannounced off year licensing visit was made to Impact After School Care (ASC) on 3-27-2023. The center opened on February 11, 2014. Services are offered to children in kindergarten to sixth grade Monday through Friday before school 6:30 am to 8:00 am, after school 3:30 pm to 5:45 pm, early out days, and full days during the summer. The program is located in Zion Congregational Church located at 103 E. Main St, Treynor, Iowa. There are 42 children enrolled. Jordan Campbell is the director, he has a Bachelors of Arts Degree and child development related experience. I met with Jordan during my visit.

Program room:
The center utilizes a large room that is connected to the kitchen area of the church. There is a fun variety of age and developmentally appropriate toys and equipment. The program uses a variety of resources for their religious based curriculum. One of the curriculum resources is called The Big Picture Interactive Bible Story Book for activities and bible verses and stories. The program has homework time, rotates games, toys and crafts frequently. Please post a daily schedule and lesson plan/activities are needed.
Jordan provides an annual newsletter and a news letter for the summer program.
Twenty five children and four staff were present. The children were having fun playing outside and in the program room. Staff had excellent interactions with the children.
The center offers a program every Wednesday after school until 5:00 pm called JForce. JForce is for elementary children and provides a variety of activities and snack time. The children are separated into groups and they rotate through the activities. JForce isn't a licensed program, but many of the children who participate are enrolled in the Impact ASC program.

Nutrition:
The center provides breakfast and an afternoon snack each day. For full day programming the children bring their lunch and it is stored in the refrigerator. Proper food storage was observed. There are thermometers in the refrigerator and freezer. The center doesn't participate in the federal food program. You must follow the CACFP guidelines even if you aren't on the food program. Please refer the CACFP food program guidelines to ensure you are serving credible snack food items.

Health and safety:
Medication management procedures are followed when a child is prescribed medication. Two children have epi pens.
A current annual fuel burning inspection is needed. A radon mitigation system was installed in December 2019 and radon testing was done in March 2021 with a score of 1.6 pCi/L.
Fire and tornado drills are practiced and documented on a monthly basis.
The center has first aid kits.
The center has a carbon monoxide detector.
Purell Surface is used for sanitizing.

Playground:
The playground area has a pavilion with electricity, this provides a shaded area. Grants have been received for playground

renovations - dirt work to the playground, wiffleball field were added. A fence will be added to the wiffleball field and sun shade structures will be installed over playground equipment in 2023. More mulch will be added to the playground, and grass seed on the wiffleball field. More green space has been added as well as cement area/parking lot.

Transportation:
No transportation services are offered at this time. The school bus transports the children to the program after school each day. The center takes walking field trips to the library and the park.

Administrative records:
Staff files were read, make sure all staff have the required contact hours of training.
Child files were read and were in excellent order.
Jordan maintains daily contact with the staff.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

Jordan works very hard to provide a fun program for the children. The staff had excellent interactions with the children. Your program is an excellent resource for the community.

New in 2022/2023
Renovations to your outside play area continue to be made; shade structures will be installed over playground equipment, a fence will be added to the Wiffleball field, mulch and grass seed will be added, more green space and additions to cement/parking lot.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

109.7(2): Center directors and all staff have the required contact hours of training.
Jordan make sure you and your staff have the required contact hours of training.

109.11(7)c: All centers: Annual inspection prior to heating season of all fuel-burning appliances to reduce risk of carbon monoxide poisoning and shall install one carbon monoxide detector on each floor that conforms to UL Standard 2034.
A current annual fuel burning inspection is needed.

109.12(1): Program structure that uses developmentally appropriate practices and written program of activities planned to the developmental needs of children served.Program complements but does not duplicate school curriculum.Schedule of program is posted in a place visible to parents.
Please post a daily schedule and lesson plan/activities are needed.

V. SPECIAL NOTES/RECOMMENDATIONS:

A full license is recommended for 2-1-2022 to 2-1-2024.
Off year licensing visit 3-27-2023.

*Note: If you are the Child Care Center Director and you feel something is unclear or unjustly cited, please contact your DHS Licensing Consultant to discuss the issue. The child care director may also send a response which will be placed in the licensing file.

*Note: If you are a member of the general public, there may be additional information contained in the public file. You may contact the DHS Licensing Consultant to inquire.
