	PROVISIONAL license from
	DENIAL of initial application
	SUSPENSION of license
	REVOCATION of license

Licensing Consultant: Debbie Hammer **Date:** 05-03-2023

I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

N/A.

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

A full licensing visit was conducted on 4/28/23. The Director and On-Site Supervisor were present during the visit.

All areas of the program were observed. These areas observed consisted of classroom observations and activities, nutritional practices, health and safety practices, playground observation, field trip and transportation practices, and administrative review.

NCRC (Nevada Community Resource Center) was first started in 1998. They are primarily affiliated with the school district, and the school district owns the building. This site is in an old church and is about a block away from the elementary school. They provide before and after school care, and also provide wrap-around care for the preschool age children. They also provide care for children when school is not in session and during the summer.

Before school care is provided from 7-7:45 am, and after school care is from 3:30-5:30 pm. Preschool wrap-around care is from 11:00 am-3:30 pm. The preschool children can also attend the after school child care program from 3:30-5:30 pm.

During the summer months the care is offered from 7:00 am-5:30 pm. They use the elementary school so they can separate the children into three classrooms. There are three preschool classrooms at the school that are used, each room has a bathroom with a sink in the bathroom as well as a sink in the classroom. The program can also use the gym and commons/cafeteria area.

Chris Burling has been the director since 2010. She has worked in other child care programs, and also worked as a para in the elementary school starting in 2002 and was there until she became the director at NCRC.

Kasey Taggart became the on-site supervisor in August of 2021. Kasey has a Bachelor's degree in child, adult and family services and prior experience in a childcare setting.

The center uses one large room for their main programming space and also has a smaller game room for the older children and a reading room. The center uses the school playground, which is within a block from the church. They close for one week after school is out for the summer, to get ready for summer programming, and then close again for one week before the school year starts.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

The Director has been with this program for several years and brings strong leadership and knowledge to the program.

The center has a very close relationship with the school and their teachers and counselors. This enables them to talk about children who are struggling and come up with a plan that can be followed by both the school and the child care program.

Annual parent surveys always have many positive feedback comments.

NCRC is able to offer some scholarships to help families who need some financial assistance. People in the community donate to this fund for scholarships.

The center has video cameras in the child care rooms.

The center provides more than just child care to the families they serve, they also provide resources to the families and transportation to summer events so parents do not have to take time off of work if their child has swimming lessons or camp.

The center partners well with other agencies and businesses in the community.

The center offers family events and activities.

The center communicates well with the parents and have developed strong and trusting relationships with the families and children.

The Director and On-Site Supervisor are advocates for the children and families as well as for the center as a whole. At board meetings they discuss what they can do to improve the center.

This building is used for other community based programs such as MICA Head Start, Rotary Club coat donation, Big Buddies, and ISU Extension programs. This program partners well with these other programs.

The main classroom has good room set up with many shelving units for center activities and is child friendly.

The city of Nevada is a strong support for the center and gives a donation/grant to the program every year.

The staff work well together and have performed well during the pandemic.

The center has a very supportive board of directors.

The center is able to schedule and arrange many activities for the summer. The zoo comes to the center through ISU. The center purchased craft and art kits for the children through Octagon center for the Arts.

The center received STEM kits from ISU extension.

The center has an All About Me staff board for parents to get to know staff.

The center has been able to continue their Angel Tree Program at Christmas.

Enrollment remains strong and they are already full for wrap around care for next school year.

The administrative team accommodates staff and values their staff.

The director and on-site supervisor work well together and are a strong team. They are passionate about what they do.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

There were no aspects of operation that fell below the standards noted or observed during the visit.

V. SPECIAL NOTES/RECOMMENDATIONS:

Radon testing is required every two years. The center last conducted radon testing in March of 2022 and all rooms fell under the 4-0 cutoff. Mitigation was installed in the summer of 2019.

The center receives their lunch from the school. The lunch and snack menus reflect the center is following CACFP guidelines.

*Note: If you are the Child Care Center Director and you feel something is unclear or unjustly cited, please contact your DHS Licensing Consultant to discuss the issue. The child care director may also send a response which will be placed in the licensing file.

*Note: If you are a member of the general public, there may be additional information contained in the public file. You may contact the DHS Licensing Consultant to inquire.
