1. Basic Overview

Angel became a Registered childcare provider in June of 2019. She has primarily cared for four of her grandchildren who are all school age. At this time, she has a full-time job outside of the home and providers care for her grandkids in the evening and weekends. She is not interested in caring for other children at this time but may consider it in the future. Angel does not participate in the IQ4K quality rating system. She does participate in the Food Program. Angel currently only uses the main level of her home for childcare. She does have a good size yard for outdoor play. Angel does not have any pets but noted she might consider getting one in the future. Angel does not have an approved substitute or assistant.

2. Identify Observed Strengths Of The Program

CHILD CARE ANNUAL EVALUATION

Angel had three of her grandchildren in care on this date. This worker did observe her to appropriately re-direct a few of the children as needed. Her tone was nurturing but firm. She did have special needs care plans in place as needed. Angel described positive opportunities and interactions with the children including cooking, board games and learning activities on the computer.

Angel's Emergency preparedness Plan was detailed. She had a folder for each child, and her documentation was organized for easy review of compliance.

3. Identify The Aspects That Fall Below The Standard

110.9 (1) a : Within six months of becoming registered, a physical exam report documented on form 470-5152, Child Care Provider Physical Examination Report, for all household members over the age of 18. Physical exams should be repeated every three years.

Angel's physical had expired. (She reported that she does have one scheduled in November.)

*Angel needs to obtain an updated/current physical on the approved HHS form.

A re-check is not needed at this time. The above corrections should be made within 3 weeks (ideally by 10/7/26 but her Dr appointment is not scheduled until November) and will be reviewed at the next annual compliance check.

5. Special Notes/recommendations

Notes:
Angel does transport the childcare children. Currently she only cares for her four grandchildren.
Angel shared that she does not ever use a swimming pool at her home but has taken the children to the pool occasionally in the summer. She does have written permission from the parent.
We did discuss safe sleep policies (although she does not have any infants in care at this time)
We did discuss the number of children she is allowed to care for at one time as a Category B provider.
As noted above, Angel does not currently have any pets, but she did state she may consider one in the future. We did discuss what she would need if she got a pet and we discussed pet safety around children.

As part of the 2026 Targeted compliance the Emergency Preparedness Plan was thoroughly reviewed. Angel was in compliance with her EPP.
She was encouraged to review it at least yearly to ensure that no changes need to be made.

Recommendations:
As of 7/1/25 providers are expected to notify all parents in writing that the state does allow parents to submit an exemption for immunizations (either religious or medical) in lieu of the immunization record for each child. We did discuss this at last year's annual check and Angel did have this documented accordingly.
