## CHILD CARE ANNUAL EVALUATION

**1. Basic Overview**

I conducted a compliance visit with Registered Child Development Home Category B provider Alyssa Lau on 5/26/2026. Alyssa has been involved in child care for 16 years. She continues using the main floor only of her ranch style home. This home is entirely designated for child care as Alyssa lives at another location. The main floor has lots of space and rooms for activities. Alyssa had no children present during our visit per being off that day, but she cares for a total of 8 children at this time. She has one HHS-approved substitute. Alyssa has no pets at this home and uses a fenced back yard as her outside play area. She is due to renew her registration effective 4/30/2028.

**2. Identify Observed Strengths Of The Program**

Alyssa grew up in a Child Development Home environment, has years of experience running her own child care operation, and does a good job in maintaining her compliance postings/files. She provides a good environment for children with the entire home being designated for child care. Alyssa describes her strengths as being organized, having good time management skills, and being flexible with families. Her curriculum includes lots of free play. She does not hold to a strict schedule, but likes to work in lots of activities throughout the day. These activities include sensory bins, dramatic play, coloring, music, playdough, and educational games. The children spend lots of time outside as weather allows, and Alyssa added a new playground set to her back yard this spring.

**3. Identify The Aspects That Fall Below The Standard**

Alyssa was in compliance at this time.

**4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance**

N/A

**5. Special Notes/recommendations**

The 2026 targeted compliance for the Emergency Preparedness Plan was conducted. Alyssa was in compliance having a plan consistent with her current operation.

I encourage Alyssa to work with Teri Orr from Child Care Resource and Referral with any ongoing compliance or training needs.
Teri can be reached at: (319) 433-7750

Alyssa had no infants under 12 months of age present during our visit but does have one in care. She has cribs for napping and we reviewed safe infants sleeping policies.
