Program Population Served:

- [X] Infant(0<24 mos)
- [X] Toddler
- [X] PreSchool
- [ ] School Age
- [ ] All Ages

CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Jill Frampton has been providing childcare services for 23 years. The children she cares for are all preschool aged children. The provider had five children in her care at the time of the visit. The provider has two separated areas one for younger children and one for the older children. The areas are separated by moveable objects that give her the ability to see all of the children at any one time. When compliance staff arrived all of the children were engaged in playing with toys. The provider talked with compliance about the daily routine and the group would be getting ready to head outside. Before going outside they work together to pick up and put away the toys. The provider discussed that most of the day is child led play activities. She is scheduled in daily routines, but the children pick out the toys and activities to do while in care. The provider works with the food program and supplies two full meals and a snack daily.

2. Identify Observed Strengths Of The Program

The provider told compliance staff about some growth that she has had in the last year. The provider was very excited about learning new things and being able to expand her services. Observation of the provider with the children led compliance staff to see how she works with all of the children.

The provider maintains focus of all of the children during the childcare day. Her love for the children is easy to see as she engages all of them throughout the day.

The provider reported that she is proud of the behaviors of the children when visitors come, like compliance staff or the food program representative. She feels her experience with children has led to the consistency that she provides to the children daily.

3. Identify The Aspects That Fall Below The Standard

110.9 (1) : Within six months of approval, a Physical exam report documented on form 470-5152, Child Care Provider Physical Examination Report, which is repeated at least every three years.

**The provider is in need to update her mandatory reporter training. It expired in August 2025. This will be reviewed at your next compliance visit.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

5. Special Notes/recommendations

2026 targeted compliance measure: Emergency Preparedness Plan. The provider has a completed EP plan that identifies planned actions for evacuation, shelter in place, lockdown, communication and reunification. The plan also addresses continuity of care in the event of a disaster at the location of the childcare.
